

Niacinamide 10% + Tranexamic 2%

10% niacinamide with 2% tranexamic acid. For uneven tone and dark marks.

HOW TO USE

Morning or evening, after cleansing. Daily sunscreen is essential alongside — it does more for pigment than any serum.

INGREDIENTS

Aqua, Niacinamide, Glycerin, Tranexamic Acid, Ananas Sativus Fruit Extract, Acacia Senegal Gum, Xanthan Gum, Caprylyl/Capryl Glucoside, Citrus Aurantium Dulcis Peel Oil, Cananga Odorata Flower Oil, Phenoxyethanol, Rosmarinus Officinalis Leaf Oil, Ethylhexylglycerin, Limonene, Linalool

WHAT TO EXPECT

Pigment lifts slowly. Expect eight to twelve weeks before change is visible, and longer to hold it. Sun protection is what keeps it.

Contains fragrance ingredients including limonene and linalool. If you are sensitive to fragrance, speak to your practitioner. For external use only.

Full ingredient list, batch and expiry on the bottle. Store below 25°C.
