

Salmon Sperm PDRN Serum

A salmon-derived DNA fragment complex with adenosine, resveratrol and acetyl hexapeptide-8.

HOW TO USE

Evenings, after cleansing. Not in the same application as vitamin C or an exfoliating acid. Suitable from day zero after microneedling or a procedure, or as your practitioner directs.

INGREDIENTS

Water, Panthenol, Glycerin, Terminalia Ferdinandiana Fruit Extract, Sodium DNA, Adenosine, Hydroxyethylcellulose, Acetyl Hexapeptide-8, Resveratrol, Ethylhexylglycerin, Sodium Hyaluronate, Carbomer, Copper Tripeptide-1, Phenoxyethanol, Cyanocobalamin

WHAT TO EXPECT

Gradual, cumulative change over months. No stinging or peeling should occur. Often used immediately after microneedling and other in-clinic treatments.

CONTAINS FISH. Not suitable if you have a fish or seafood allergy. Contains copper tripeptide — keep apart from vitamin C and acids. Stop if you develop stinging that does not settle. For external use only.

Full ingredient list, batch and expiry on the bottle. Store below 25°C.
